PARENT ORGANIZATIONS AND PARENT TEACHER ORGANIZATIONS/PARENT TEACHER STUDENT ORGANIZATIONS

To foster relationships with parents that encourage the home and school to work together to establish and achieve common educational goals for students, the Superintendent and the professional staff will consult with and encourage parents to share in school planning and in setting objectives.

Parent Teacher Organization

To enhance communications between parents and school staff, the Committee encourages the maintenance of formal parent organizations at each school building, and at the Children's Center. For this purpose the Committee will officially recognize a parent organization at each building and at The Children's Center.

1. Organizations will file a copy of its organizational papers with the building Principal/Children's Center Administrator.
2. A vote, open to all parents of children enrolled, will designate the building/Children's Center organization to be recognized if more than one organization requests recognition.
